How to take a screenshot

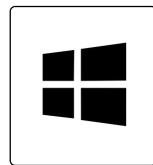

1

Many of the live streams have a snapshot feature built in, look for the camera button to snap the perfect critter photo!

2

PC Instructions: Make sure video stream is in full screen. Press the Windows + Print Screen Key. Your screen will dim briefly, and a photo will be saved in a Pictures > Screenshots folder.

+

PrtScr

3

Mac Instructions: Make sure video stream is in full screen. Press Shift + Command + 3 keys at the same time. A screenshot will save to your desktop.
